Vocational Preparation Programs

These classes are for new graduates of secondary school who speak English as a second language. They provide a specific training in a particular field of study. Vocational Preparation programs might provide language instruction for students who are preparing to enter the workforce, or for students who are preparing to enter post-secondary education.

Citizenship Preparation Classes

Citizenship Preparation programs provide a combination of English language instruction and study of the Canadian Constitution and government. These classes are designed to help students who are preparing to enter post-secondary education, and who are also preparing to enter the workforce, to understand the requirements of becoming a Canadian citizen.

HOW TO USE THIS DIRECTORY

CATEGORIES

The Directory of ESL Programs 1984-1985 is in five sections, depending on the type of program. The categories are General Purpose, Academic Preparation, Vocational Preparation, Citizenship Preparation, and ESL Literacy. The categories can be defined as follows:

General Purpose

General Purpose programs provide orientation instruction for newcomers in the "survival" language necessary for life in their new communities. Language relating to essential topics such as transportation, the educational system, banking and health care is taught.

These programs are usually suited to the needs of recently arrived immigrants, although there may be found in class people who have lived in Canada for longer periods of time, but who have lacked the opportunity to learn English/French to their satisfaction.

Any program will contain many levels of proficiency and a variety in both the immediate and long-term language needs of the learners.

Parent and Preschool Programs are included under General Purpose along with ESL/FSL for Seniors.

Academic Preparation Programs

These classes prepare the adult for a particular field of study, for example, English for Science and Technology, or for Social Science. The learners may be immigrant students entering post-secondary institutions for the first time, or they may be adults who must return to college or university to upgrade their academic level in order to meet professional standards of the province.

It is important to note that the focus of the class is not the content of the discipline but the language of that area of study. There will be topics of study included which would form part of the curriculum of General Purpose programs or other program types where these topics are of relevance to the particular group of learners.

Vocational Preparation Programs

These classes serve two groups of learners. They help adults who need English to study for a specific vocation or to prepare them to seek work. Vocational Preparation courses might provide language instruction for such diverse vocations as welding, accounting, nursing or home management.

Citizenship Preparation Classes

Citizenship Preparation programs provide a combination of second language instruction and study of the traditions, institutions and geography of Canada. Learners are prepared to be successful not only in their citizenship court interviews, but also to appreciate the significance of becoming Canadian citizens.

As with other program types, analysis of learner needs will lead to a balanced course integrating other core topics with the citizenship focus.

ESL Literacy Programs

These classes are developed to respond to the special need of those adults who have had few opportunities for formal education in their homelands. As a result teaching practices must be specifically developed both to promote language learning without the aid of reading and writing and to teach reading and writing skills along with speaking skills.

The content of these ESL literacy classes can be drawn from any or all of the four preceding program types. It is the methodology and pace requirements that make it advisable to program separately for this group of adults.

MAPS

Once you have determined the type of program required, locate this section of the directory. At the front of each section will be a map of Metropolitan Toronto and in some cases a map of Peel Region. In the case of General Purpose programs, Metropolitan Toronto is further broken down into 9 areas (in order to accommodate the large number of entries).

Consult the appropriate map and locate numbers close to the client's home or within reasonable travelling distance. Then turn to the pages immediately following the map and find the entry corresponding to the number(s) on the map. Note that in many cases there may be more than one entry for each map number, especially in the more dense downtown areas.

DIRECTORY ENTRIES

The entries in the directory list the following information for each program; map number, location information, dates and times, and program information. These are explained as follows:

Map Number

Refers to number on preceding map indicating location.

Location Information

The location of the program is indicated in bold, followed by the address, contact person (name or title), and phone number. The sponsor of the program is noted in brackets. In many cases the contact person will be reached at the sponsoring organization.

e.g. If a Board of Education offers a program at a school and the principal is the contact, the entry would read as follows:

Any Public School
10 Main Street
Toronto
Principal
555-1212
(Board of Education)

If the Community Recreation Centre sponsors a program held at a library, but to enroll, one contacts the program coordinator whose office is at the community centre, the entry would read as follows:

Main Public Library
5 King Street
Toronto
Program Coordinator
555-5251
(Community Recreation Centre)

Dates and Times

Indicated are days the program is offered followed by hours of instruction.

e.g. Mon./Wed.
7:00pm - 9:00pm

Note: If more than one program in a category is offered at one location at different times, they are listed as follows:

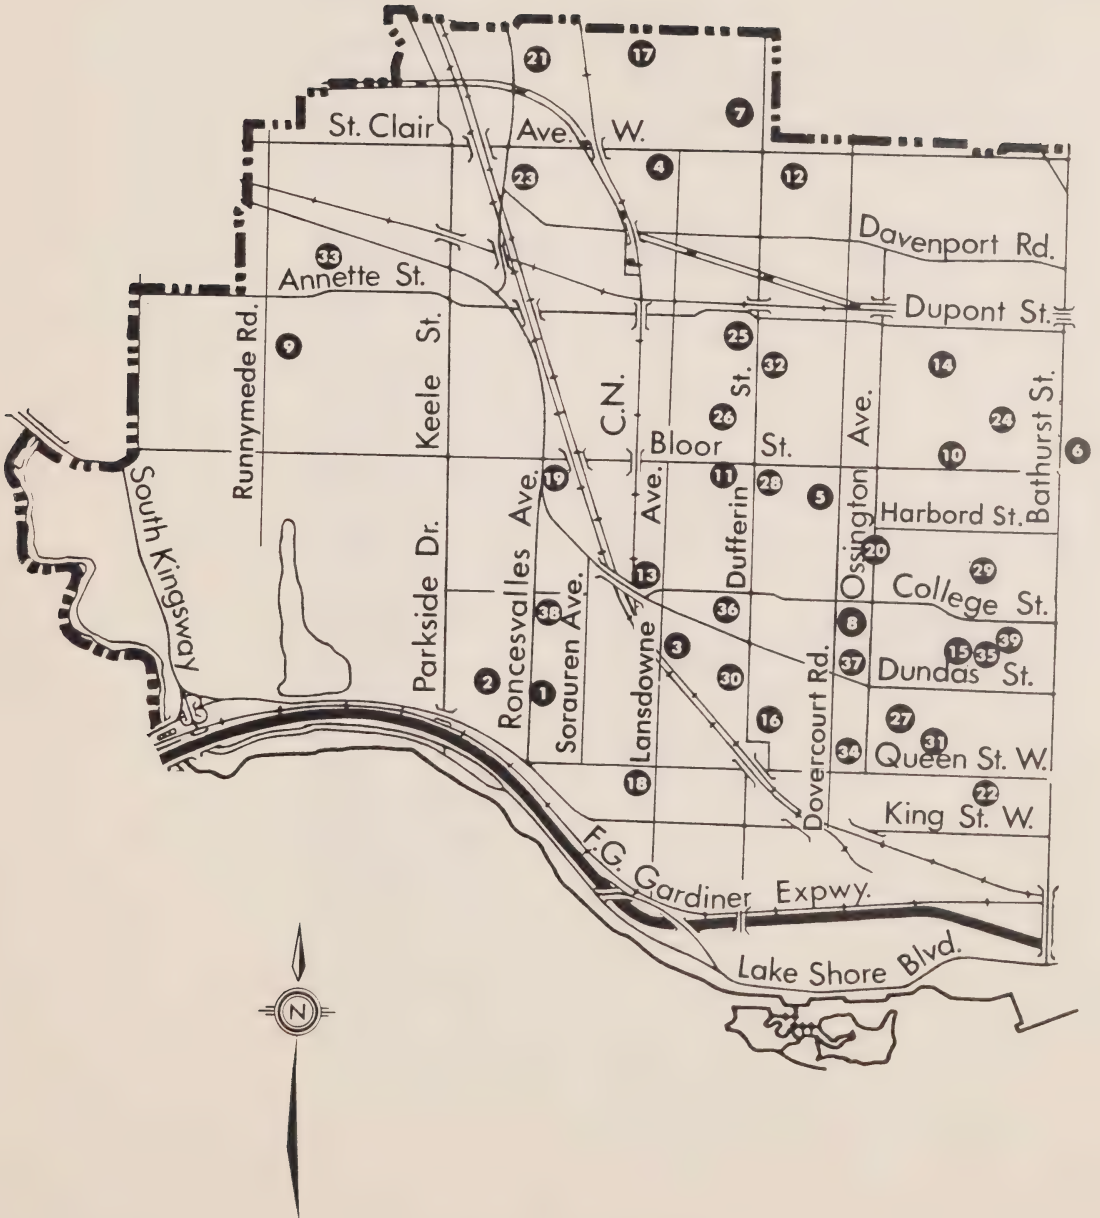

Mon./Wed.
7:00pm - 9:00pm
Tues./Thurs.
6:00pm - 8:00pm

Program Information

This section indicates special information or limitations to the programs offered. Included is information such as:

- registration limitations if not a continuous intake program e.g. 10 week course, Sept. 10 - Nov. 16
- specific target group if program is offered to respond to a special need e.g. seniors, C.E.I.C. sponsored candidates, parent and preschool, etc.
- fee if any
- bilingual program (indicate language)
- special focus e.g. ESL for Science and Technology (in Vocational Preparation Section)
- special services offered e.g. babysitting, childcare.
